U.S. EXPORT SALES

- Outstanding Export Sales
(Unshipped Balances)
On May 2, 1976
- Export shipments in
Current Marketing Year
- Daily Sales reported
May 3 - 11, 1976

-- As Reported by Exporters

Outstanding export sales as reported by private exporters and compiled with other data in this release give a snapshot view of the current contracting scene. At any given time in the course of a marketing year outstanding sales do not bear a consistent relationship to eventual export shipments. A meaningful export projection is not obtainable by the simple device of adding outstanding sales to exports to date. The latter data, alone, may provide a more reliable measure of current export activity than may be derived from a year-to-year comparison of outstanding sales.

EXPORT SALES REPORT

Comments on release of May 12, 1976 (based on reports from exporters during the week ending May 2, unless otherwise noted):

Wheat: The apparent export commitment (cumulative exports plus outstanding sales) for 1975/76 advanced by 420,000 metric tons (MT), bringing this year's total commitment to 30.9 million MT. Some of the larger increases in commitments were to Egypt, 125,400 MT; the Republic of Korea (ROK), 99,400 MT; and Japan, 77,400 MT. Total commitments to Egypt and the ROK, both large PL-480 recipients this year, now stand at 1.1 million MT and 1.5 million MT, respectively. Commitments to Japan now total 3.4 million MT, about equal to those for the comparable period last year.

Outstanding sales of wheat for shipment during the year beginning July 1, 1976, rose by 491,800 MT, largely reflecting recently announced new purchases by the USSR. Outstanding sales for 1976/77 now total 2.5 million MT, compared with 3.9 million MT for the corresponding period a year ago.

Feedgrains: The apparent export commitment for feedgrains in 1975/76 increased by 3.0 million MT, bringing the total for the year to 40.7 million MT. Corn commitments rose by 2.9 million MT, the largest weekly increase this marketing year. Increased commitments to the USSR totaling 2.5 million MT accounted for over 85 percent of this week's increase. Recently announced new sales and transfers from optional origin accounted for about 2.0 million MT of the Soviet increase, while destination changes accounted for the remaining 0.5 million MT. These changes in commitments to the USSR were reported in detail in last week's issue under the daily reporting system. Some of the other significant increases in corn commitments, largely resulting from new sales, were to the European Community (EC), 332,000 MT; Eastern Europe, 46,700 MT; and Japan, 158,600 MT. These increases in total commitments were somewhat offset by declines in commitments to unknown destinations of 297,900 MT. Barley and sorghum commitments advanced by 33,900 MT and 83,500 MT, respectively. This week's jump in sorghum commitments represents the largest weekly increase since the week ending February 15, 1976.

Outstanding sales of corn for 1976/77 shipment rose by 1.6 million MT, bringing total sales to date to 3.6 million MT compared with 2.1 million MT for the comparable period last year. Recently announced new sales to the USSR accounted for about 90 percent of this week's increase.

Rice: The apparent export commitment for 1975/76 increased by 35,900 MT, bringing the total for the marketing year to 1.4 million MT. Sales under PL-480 to Zaire accounted for 75 percent of this week's increase.

Soybeans: The apparent export commitment for 1975/76 rose by 427,000 MT, primarily reflecting increased commitments to the EC, Japan, Spain, the USSR, Canada, Poland, and unknown destinations. Exports during the week totaled 353,100 MT including shipments to the EC, 155,000 MT; Japan, 112,300 MT; Spain, 59,200 MT; and the USSR, 26,500 MT. With two-thirds of the marketing year gone, exports to the Soviet Union have now risen to 245,700 MT.

The Brazilian soybean harvest now underway is estimated to be 11.6 million MT, up by 300,000 MT from earlier estimates.

Soybean Oilcake and Meal: The apparent export commitment for 1975/76 increased by 49,900 MT, reflecting larger commitments to West Germany, Spain, France, Czechoslovakia, the Netherlands, and Japan. Commitments to East Germany and unknown destinations decreased by 89,600 MT. Exports during the week totaled 164,400 MT, with the major takers being West Germany, 36,900 MT; France, 29,000 MT; Spain, 21,200 MT; Czechoslovakia, 19,800 MT; and Hungary, 16,300 MT.

Cotton: Sales were larger than during any one of the past four weeks while prices continued to advance as a result of concern over the possibility of a short Northern Hemisphere crop. Sales of Upland cotton during the week totaled 83,000 running bales (RB), including 28,000 RB for delivery during the current marketing year and 55,000 RB for 1976/77 shipment. Hong Kong, the ROK, and Japan were the largest buyers. The net export commitment for both marketing years combined increased by 221,000 RB during the four-week period ending May 2, compared with an increase of 383,000 RB during the previous four weeks and 394,000 RB during the comparable period a year ago.

* * * * *

ADDITIONAL DATA ARE INCLUDED ON PAGES 27-29 FOR COTTON, BY STAPLE LENGTH, ACCUMULATED EXPORTS AND OUTSTANDING SALES AS OF MAY 2, 1976; CORN, ACCUMULATED EXPORTS AND OUTSTANDING SALES COMPARED WITH A YEAR AGO; AND STATUS OF EXPORT SALES TO USSR AS OF MAY 11, 1976.

Known and Unknown	1,115.2	2,292.1

Data may not add due to rounding.

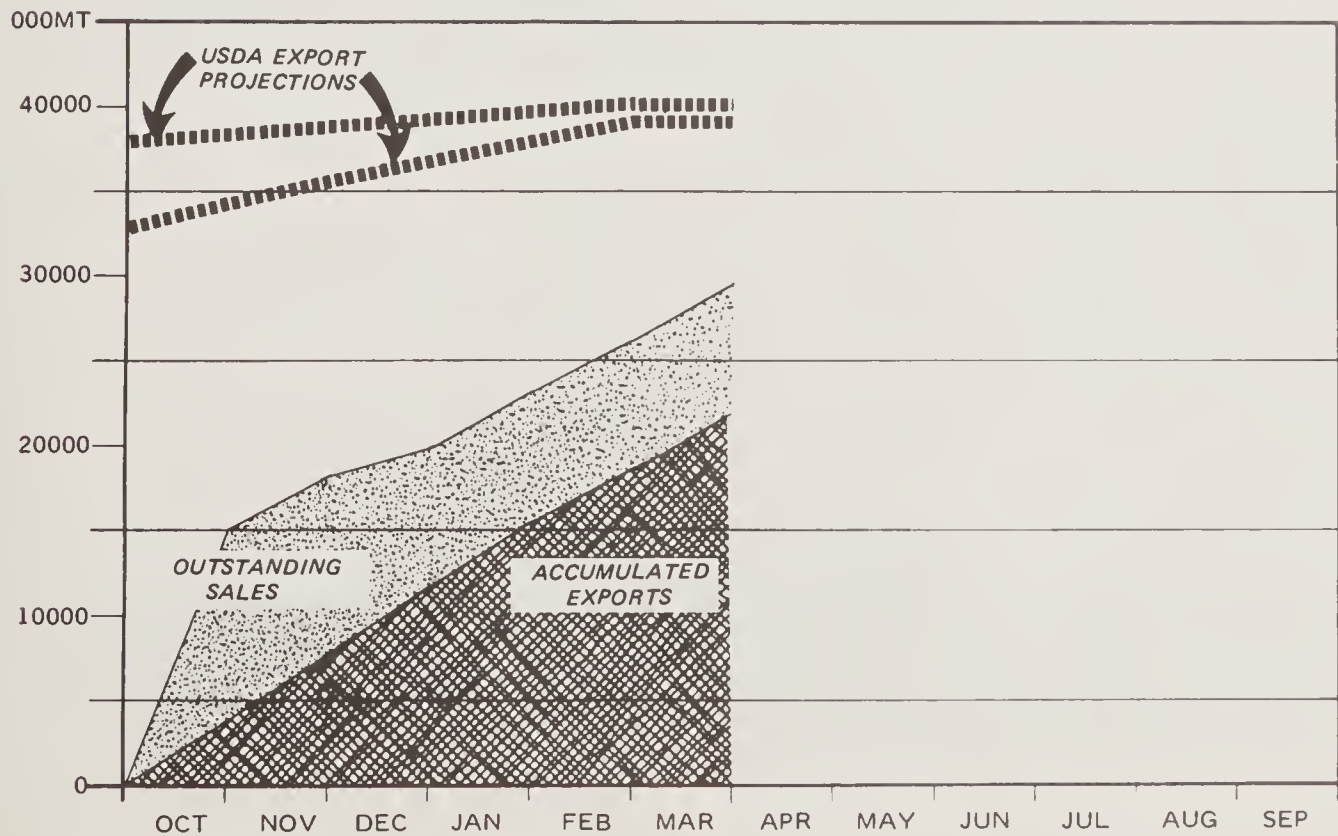

Upland cotton exports decreased by over 14 percent with 2,292 thousand running bales exported in MY 75/76 (as of May 2, 1976) compared with 2,685 thousand running bales for the corresponding period in MY 74/75. Decreased U.S. cotton production in MY 75/76 --down by 28 percent or about 3 1/4 million bales from last year's level and the smallest crop in eight years--coupled with slower economic recovery in Western Europe and Japan contributed to the lower export level.

Asian countries continued to take the largest proportion of U.S. cotton exports. The Republic of Korea is the leading importer of all upland cotton with 699,000 bales, followed by Japan and China (Taiwan). Korea is also the leader by staple length with 30 percent of 1 1/16 inch and over, 44 percent of 1 inch to 1 1/16 inch, and 17 percent of under 1 inch. Other countries contributing to the export total were Indonesia and Bangladesh with imports of 207,000 bales and 109,000 bales, respectively. The major portion of Indonesian imports were in the longer staple lengths with 67 percent of their total in the 1 1/16 inch and over category. Bangladesh took only the shorter cotton staple lengths with 55 percent in the under 1 inch length and 45 percent in the 1 1/16 and 1 inch length.
